Narcoland Anabel Hernandez, 2013-09-10 The product of five years' investigative reporting, the subject of intense national controversy, and the source of death threats that forced the National Human Rights Commission to assign two full-time bodyguards to its author, Anabel Hernández, *Narcoland* has been a publishing and political sensation in Mexico. The definitive history of the drug cartels, *Narcoland* takes readers to the front lines of the "war on drugs," which has so far cost more than 60,000 lives in just six years. Hernández explains in riveting detail how Mexico became a base for the mega-cartels of Latin America and one of the most violent places on the planet. At every turn, Hernández names names – not just the narcos, but also the politicians, functionaries, judges and entrepreneurs who have collaborated with them. In doing so, she reveals the mind-boggling depth of corruption in Mexico's government and business elite. Hernández became a journalist after her father was kidnapped and killed and the police refused to investigate without a bribe. She gained national prominence in 2001 with her exposure of excess and misconduct at the presidential palace, and previous books have focused on criminality at the summit of power, under presidents Vicente Fox and Felipe Calderón. In awarding Hernández the 2012 Golden Pen of Freedom, the World Association of Newspapers and News Publishers noted, "Mexico has become one of the most dangerous countries in the world for journalists, with violence and impunity remaining major challenges in terms of press freedom. In making this award, we recognize the strong stance Ms. Hernández has taken, at great personal risk, against drug cartels."

A man addicted to his superficial, perfect life, he pulls

Common Calling Stephen J. Pope, 2004-10-19 The sexual abuse scandal in the Catholic Church has been exacerbated in the minds of many by the dismal response of church leadership. Uncovered along with the abuse of power were decisions that were not only made in secrecy, but which also magnified the powerlessness of the people of the church to have any say in its governance. Accordingly, many have left the church, many have withheld funding—others have vowed to work for change, as witnessed by the phenomenal growth of Voice of the Faithful. Common Calling is indeed a call—for change, for inclusion, and a place at the table for the laity when it comes to the governance of the church. By first providing compelling historical precedents of the roles and status of the laity as it functioned during the first millennium, Common Calling compares and contrasts those to the place of the laity today. It is this crossroad—between the past and the possible future of the Catholic Church—where the distinguished contributors to this volume gather in the hope and expectation of change. They examine the distinction between laity and clergy in regard to the power of church governance, and explore the theological interpretation of clergy-laity relations and governance in the teachings of the Second Vatican Council. They look at how church officials interpret the role of the laity today and address the weaknesses in that model. Finally, they speak clearly in outlining the ways governance may be improved, and how—by emphasizing dialogue, participation, gender equality, and loyalty—the role of the laity can be enhanced. Speaking as active believers and academic specialists, all of the contributors assert that the church must evolve in the 21st century. They represent a variety of disciplines, including systematic theology, sacramental theology, canon law, political science, moral theology, pastoral theology, and management. The book also includes an essay by James Post, cofounder of the Catholic lay movement Voice of the Faithful, the organization that was in part responsible for the resignation of Boston's Cardinal Bernard Law. Common Calling looks to a future of transparency in the Catholic Church that, with an invested laity, will help to prevent any further abuse—especially the abuse of power.

It is November 25, 1960, and three beautiful sisters have been found near their wrecked Jeep at the bottom of a 150-foot cliff on the north coast of the Dominican Republic. The official state newspaper reports their deaths as accidental. It does not mention that a fourth sister lives. Nor does it explain that the sisters were among the leading opponents of Gen. Rafael Leónidas Trujillo's dictatorship. It doesn't have to. Everybody knows of Las Mariposas—the Butterflies. In this extraordinary novel, the voices of all four sisters--Minerva, Patria, María Teresa, and the survivor, Dedé--

speaking across the decades to tell their own stories, from secret crushes to gunrunning, and to describe the everyday horrors of life under Trujillo's rule. Alvarez helped blaze the trail for Latina authors to break into the literary mainstream, with novels like *In the Time of the Butterflies* and *How the García Girls Lost Their Accents* winning praise from critics and gracing best-seller lists across the Americas.—Francisco Cantú, *The New York Times* Book Review This Julia Alvarez classic is a must-read for anyone of Latinx descent. —Popsugar.com A gorgeous and sensitive novel . . . An Apartment on Uranus Paul B. Preciado,2020-01-28 A "dissident of the gender-sex binary system" reflects on gender transitioning and political and cultural transitions in technoscientific capitalism. Uranus, the frozen giant, is the coldest planet in the solar system as well as a deity in Greek mythology. It is also the inspiration for uranism, a concept coined by the writer Karl Heinrich Ulrich in 1864 to define the "third sex" and the rights of those who "love differently." Following Ulrich, Paul B. Preciado dreams of an apartment on Uranus where he might live beyond existing power, gender and racial strictures invented by modernity. "My trans condition is a new form of uranism," he writes. "I am not a man. I am not a woman. I am not heterosexual. I am not homosexual. I am not bisexual. I am a dissident of the gender-sex binary system. I am the multiplicity of the cosmos trapped in a binary political and epistemological system, shouting in front of you. I am a uranist confined inside the limits of technoscientific capitalism." This book recounts Preciado's transformation from Beatriz into Paul B., but it is not only an account of gender transitioning. Preciado also considers political, cultural, and sexual transition,

reflecting on issues that range from the rise of neo-fascism in Europe to the technological appropriation of the uterus, from the harassment of trans children to the role museums might play in the cultural revolution to come. *An Apartment on Uranus* is a bold, transgressive, and necessary book.

The Life, Music, and Times of Carlos Gardel Simon Collier, 1986-12-15 In the first biography in English of the great Argentinian tango singer Carlos Gardel (1890-1935), Collier traces his rise from very modest beginnings to become the first genuine "superstar" of twentieth-century Latin America. In his late teens, Gardel won local fame in the barrios of Buenos Aires singing in cafes and political clubs. By the 1920s, after he switched to tango singing, the songs he wrote and sang enjoyed instant popularity and have become classics of the genre. He began making movies in the 1930s, quickly establishing himself as the most popular star of the Spanish-language cinema, and at the time of his death Paramount was planning to launch his Hollywood career. Collier's biography focuses on Gardel's artistic career and achievements but also sets his life story within the context of the tango tradition, of early twentieth-century Argentina, and of the history of popular entertainment.

Tobacco Or Health Pan American Health Organization, 1992 Tobacco, as has been amply proven, is hazardous to people's health. Nevertheless, in many of the countries of the Americas increasing urbanization and changing lifestyles have resulted in greater use of tobacco. At the same time, health and disease patterns in the developing countries of the hemisphere are undergoing an epidemiologic transition, with chronic noncommunicable diseases displacing infectious diseases as the primary causes of morbidity and mortality. In the next few decades, these countries can be expected to face, and will need to prepare for, an epidemic of smoking-related diseases, particularly lung cancer, and a proportionally imposing burden on national health services. To confront that epidemic and alleviate that burden, greater understanding is necessary of the historical, economic, political, and public health aspects of the supply, demand, and consumption of tobacco. This publication aims to further that understanding by providing information on the general socioeconomic context, the tobacco industry, tobacco use, smoking and its effects on health, and smoking prevention and control activities in the countries of Latin America, the Caribbean, and Canada. Most of the information contained in this publication cannot be found in any other single source. It will thus serve as a baseline of data for developing countries in the Region as they engage in the complex issues involved in preventing and controlling tobacco use. Health workers, researchers, and policy makers can use the information presented here to build a coalition against what may prove to be the most important public health problem of the 1990s.
